

Video P-2.2: The 5S Digital Workspace

Course: Vault-P Office Productivity & Workflow Engineering

MODULE OVERVIEW

Goal: Applying Lean organization to files and desktops.

1. CONTEXT (THE HOOK) [0:00 - 0:25]

Your desktop is your workshop. If it's messy, your mind is messy. Let's apply 5S.

2. ROLE (THE STRATEGIC DEMO) [0:25 - 1:45]

Sort, Set in Order, Shine, Standardize, Sustain. It's the Architect's code of conduct.

3. ACTION (THE PRO TOOLS) [1:45 - 3:00]

Demo: Moving 'Active' files to a 'Launchpad' folder and archiving the 'Rubble'.

4. FRAMEWORK (THE STUDENT TASK) [3:00 - 3:45]

C.R.A.T.F. Task: Clear your desktop. Create one folder for 'Today' and move everything else to 'Archive'.

5. TARGET (THE WRAP-UP) [3:45 - 4:00]

A clean site is a fast site. I'll see you in the next build.

Production Checklist for Michael:

Before/After visual of a desktop. Graphic overlay of the 5S Japanese terms and meanings.
