

POWERPOINT 2019 BASIC: VIDEO CONTENT MAP

Goal: Automate the core narrative and technical modules into a "Click-n-Play" library.

Video ID	Section / Topic	Instructional Focus	Length
P-1.1	The Screen (1.1)	Identify Slide Pane, Ribbon, and Notes. Customize QAT for "Slide Show" access.	90s
P-1.7	Views (1.7)	Transition between Outline, Slide Sorter, and Reading View for speed.	2m
P-2.1	Slide Layouts (2.1)	Inserting new slides vs. changing existing layouts. The "Reset" button logic.	2m
P-2.2	External Sources (2.2)	Importing slides from Word Outlines and existing PPT files.	3m
P-3.2	Sections (3.2)	Grouping slides into chapters (Intro, Body, Close) for navigation.	2m
P-4.1	Presentation Flow (4.1)	Navigating slides, ending shows, and program switching (Alt+Tab).	2m
P-4.3	Delivery Mastery	Mastery: Presenter View, Timer, and Live Annotations.	4m
P-H.1	Helper: /visual	Prompting AI to generate high-impact visual metaphors for slides.	2m

Production Checklist for Michael:

- **Theme:** Use the "Presentation Gold" (PowerPoint) branding.
- **Screen:** Show the "Notes" section prominently during recording.
- **Method:** Use the "Hook-Show-Task" scripting method for every video.
